

Amen Allah Bahri

Business Intelligence student with hands-on experience in building simulations, developing KPI-driven dashboards, and training AI models to support smart, data-informed decision-making. I thrive in collaborative environments that bridge technical depth with clear communication. Curious, adaptable, and committed to solving real-world problems through practical data solutions.

Experience

Intern – Smart Agriculture

Jiotify Solutions | June 2023 – August 2023

- Developed simulations for water leakage and pipe blockage systems using Python, optimizing resource use in irrigation systems.
- Trained an AI model to predict plant water needs based on soil humidity levels, enhancing irrigation accuracy and efficiency.
- Analyzed data to assess system performance, providing actionable insights to improve agricultural practices.

Intern – Business Intelligence & Full-Stack Developer

DataEra | January 2025 – Present

- Developed Dashboard management interface
- Developed and analyzed KPI-driven dashboards to support data-informed decision-making and optimize performance.
- Designed and implemented Python scripts to generate realistic data, enabling effective development and validation of multi-dashboard functionalities.

Digital Strategist

TAG Label | April 2023 – Present

- Developed and executed digital strategies to increase audience reach and engagement, significantly boosting visibility for artists.
- Conducted data analysis to refine marketing approaches, enhancing impact in targeted markets.
- Collaborated with cross-functional teams on content and campaign management, aligning with trends and audience insights.

Education

Higher Institute of Management of Sousse

Business Intelligence

Expected Graduation: June 2025

Projects

- Real-Life Simulations (Python)
- Design and Development of a Multi-Dashboard System
- Travel Agency website (HTML/CSS/JS/PHP)
- E-commerce website (WordPress)
- Fitness Mobile Application (AndroidStudio, Java)

Amen Bahri

Skills

- Data Analysis
- Data Warehousing & ETL
- Database Management
- Programming

Programming Languages

- Python
- SQL
- C / C++
- Java
- HTML / CSS / Javascript
- PHP

IDE

- PyCharm
- Jupyter Notebook/ JupyterLab
- Visual Studio Code
- Eclipse
- AndroidStudio

Tools/Software

- Power BI
- ELK Stack
- Anaconda
- TensorFlow
- Trello/Slack
- E-views / SPSS
- Odo

Languages

- Arabic (Native)
- English (Fluent)
- French (Fluent)
